# Frequently Asked Questions (FAQs)

---

## 1. What if my Android phone model number and/or operating system version do not match?

Unfortunately, the Android phone model number and operating system version must match to ensure compatibility. If either the model number or the operating system version differ, compatibility with the myBioness™ mobile app is unknown.

## 2. My phone is not listed. Can I still download the myBioness™ mobile app?

Please download the free myBioness™ Lite mobile app and check Bluetooth compatibility prior to purchase. If the L300 Go system is successfully paired with this application, the full myBioness™ mobile app will be compatible in most instances. If the myBioness™ Lite mobile app is unavailable in your region, the full myBioness™ mobile app may still be purchased. In the unlikely event that the purchased app does not work, please contact the App Store or Google Play Store to receive a refund. Please review the refund policies for the App Store or Google Play Store as there is a limited time frame during which refunds are approved.

## 3. How do I receive a refund if the my myBioness™ mobile app does not work on my phone?

Please contact the App Store or the Google Play Store to receive a refund. Please review the refund policies for the Store or Google Play Store as there is a limited timeframe during which refunds are approved.

## 4. Is the myBioness™ mobile app compatible with an iPad or tablet?

Unfortunately, the app is currently not compatible with an iPad or tablet.

Individual results vary. Consult with a qualified physician to determine if this product is right for you.
